

# Mobilong 5MW Solar Farm

Newcomer to Australian solar, Indonesia's Terregra Renewables appointed Balance to carry out EPC activities on a 5 MW solar farm north of Murray Bridge in South Australia.

The 5 MW Mobilong Solar Farm has been developed by Terregra Renewables, a subsidiary of the listed Indonesian company PT Terregra Asia Energy Tbk.

## BALANCE SOLUTION

The project features about 16,100 PV modules and two containerized inverters. With around 50 jobs created during construction the project was an exemplary display of local Australian renewable energy capability.

Location: Mobilong, Murray Bridge, South Australia

Project: Solar Farm (ground mounted)

Capacity: 5MW

Commissioned: July 2019
